

UCSF East Africa Interest Group

Training in Research for East African Scientists

Workshop - June 3, 2013 (2:00-4:00 PM)
1700 Owens Street, Room 410 (CFAR Conference Room)

Co-Chairs:

Jeffrey Martin, MD, MPH – Professor, Epidemiology/Biostatistics, and Director, UCSF Training in Clinical Research (TICR) Program

Philip Rosenthal, MD – Professor, Infectious Diseases/Medicine, SFGH

Goals:

- To inform the UC community about current efforts in providing training in research to East African scientists
- To identify opportunities for cross-linkages and resource-sharing of existing activities to create a greater synergy of efforts
- To develop new ideas for multidisciplinary, trans-UC collaborations to create new training programs

AGENDA

- **Training in Laboratory-Based Research (*Moderator: Rosenthal*)**
 - Building Research Capacity in Uganda through the MU-UCSF/Infectious Diseases Research Collaboration – *Phil Rosenthal*
 - Building Basic and Translational Laboratory Capacity at Makerere University's Infectious Diseases Institute – *Stefanie Sowinski*
 - UC Berkeley Global Health Equity Scholars Fellowship: a consortium of UCB, Florida International University, Stanford, and Yale – *Lee Riley*
 - UC Global Health Institute GloCal Health Fellowship: a consortium of UCSF, UCSD, UCLA, and UC Davis – *Craig Cohen*
 - UC Berkeley Research Training Programs: Center for Global Public Health, Center for Emerging and Neglected Diseases, and Center for Effective Global Action – *Speaker TBD*
- **Training in Epidemiologic and Clinical Research (*Moderator: Martin*)**
 - UCSF Training in Clinical Research (TICR) Program – *Jeffrey Martin, Aggrey Semeere, Miriam Laker*
 - Training in Applied Public Health and Prevention Research through UCSF Global Health Sciences Programs – *Sandy Schwarcz*

- **Training in Epidemiologic and Clinical Research (*Moderator: Martin*) - CONTINUED**
 - UC Berkeley Global Health Equity Scholars Fellowship: a consortium of UCB, Florida International University, Stanford, and Yale – *Lee Riley*
 - UC Global Health Institute GloCal Health Fellowship: a consortium of UCSF, UCSD, UCLA, and UC Davis – *Craig Cohen*
 - Building Research Capacity in Uganda through the MU-UCSF/Infectious Diseases Research Collaboration – *Phil Rosenthal*
 - UC Berkeley–UCSF Joint MD/MS Program – *Annie Chang*
 - UC Berkeley Research Training Programs: Center for Global Public Health, Center for Emerging and Neglected Diseases, and Center for Effective Global Action – *Speaker TBD*

Issues for Discussion:

- *What are the unmet needs/opportunities?*
- *How can we synergize efforts?*
- *Are there sufficient mentors?*
- *What are the funding opportunities?*
- *How best to develop a competitive application given a new FIC paradigm and funding limitations?*
